

PHOTONICS PUBLIC PRIVATE PARTNERSHIP

H2020 - 688265

MIRPHAB

MidInfraRed Photonics devices fABrication for
chemical sensing and spectroscopic applications

Proposal NAME

Annex **xx - Technical description of the trial product**

This document is organized in two parts: part 1 will be forwarded to the MIRPHAB customer while part 2 is for internal use only. The document is generated and coordinated by the Technical Contact Partner, as designated by the PEG, with the contribution of the partners providing CDs

Part 1

Short resume of the Specifications (as from the Applications inputs)

.....

Short description of the proposed prototype device

(Should include the physical dimensions, all electrical & thermal specs and optical specifications)

.....

List of the MIRPHAB Company Devices (CD) used

MIRPHAB Ref.	Short description	Datasheet ⁽¹⁾

⁽¹⁾ join the datasheet of the CD

Test procedure

(List schematically the test procedure, the key physical variables measured and reported to the customer and the estimated range of values to be achieved)

.....

Pricing and delivery

(indicate here the price and the delivery date)
